

# Personal Dashboard

These features are available after you have created a Parent Account.

The **Personal Dashboard** is where you can access everything on the school website that requires a login. The Personal Dashboard displays on the lower left side of the website after you have logged in. Look for the **Welcome** message on the top of the Dashboard.

The link to **My Account** allows you to make changes to your **Personal Settings**, view your personal **Calendar**, and view your **Message Center**.

The link to **My Family** allows you to see all of your student's classes and teachers. Each class and teacher that you see is also a link to move to that **Classroom Page** or **Teacher Profile**.

The **Recent Activity** Link is a compiled list of school announcements, classroom announcements, and all updates made to the **Class Room Web Pages** of your student.
