

# Welcome to the New Superior Websites

There are nine websites—one for district information and one for each school. This will allow for more customized information at each school site.

The homepage of each site contains **Announcements** and an **Event Calendar**.

**Teacher Classroom Pages** can be accessed through a link on each Teacher's **Profile Page**. All Teacher Profile Pages are under the **Staff** link.

## Why Create a Parent Account?

As a parent, you can view all information without creating a parent account. However, you can get more out of the websites with a parent account:

- you can receive **email** or **text (RSS)** reminders about school events and happenings in your students' classes
- you will have a personal dashboard to instantly move to the classroom pages of your students

Registration for the website is quick and easy. Navigate to a school and under the Parent tab, select Register for Website. This registration will carry over year after year, and if you forget your password, it is easy to request a password reset.

Once you have a parent account, **you do not need to request to join any pages in the school websites**. You are **automatically** joined to all the pages related to your student(s).
