

Where is...?

When looking for information, please remember there are **nine websites**.

- Anything related to your student's activities in school will be found at that school site.
- Information that is related to the whole district will be found at the District Site.

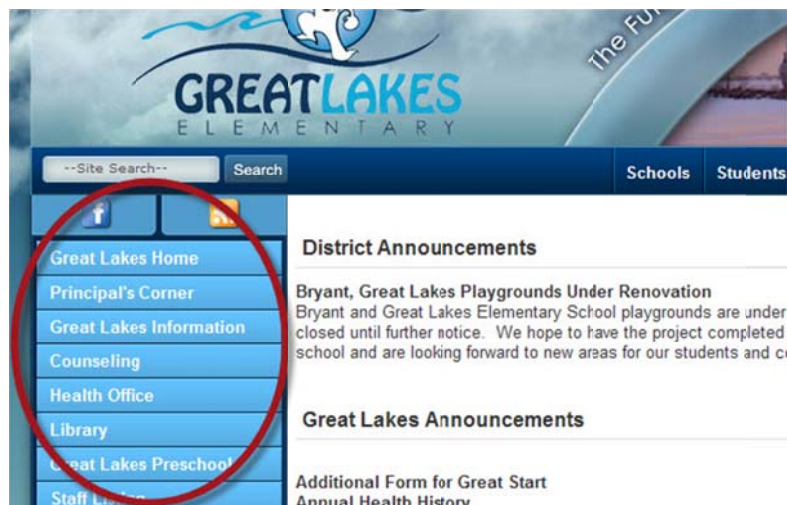

To move to a school, click on the **Schools** button and select your school.

Once at a school, click on **Students** or **Parents** for information related to that school

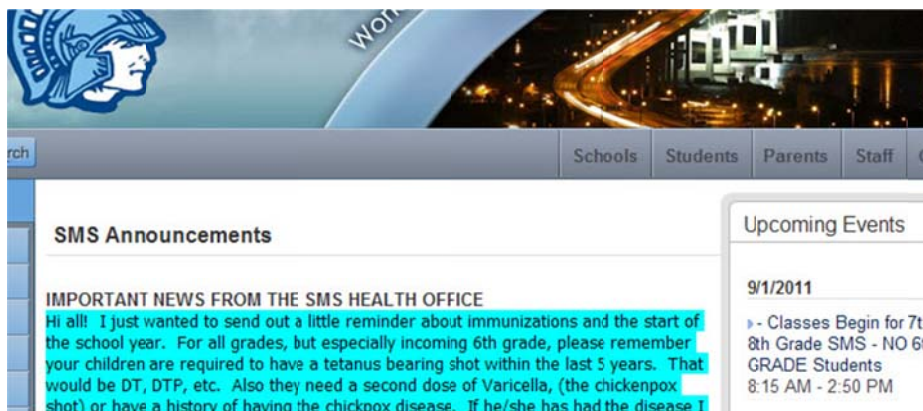

Use the side navigation to find information arranged by topic.

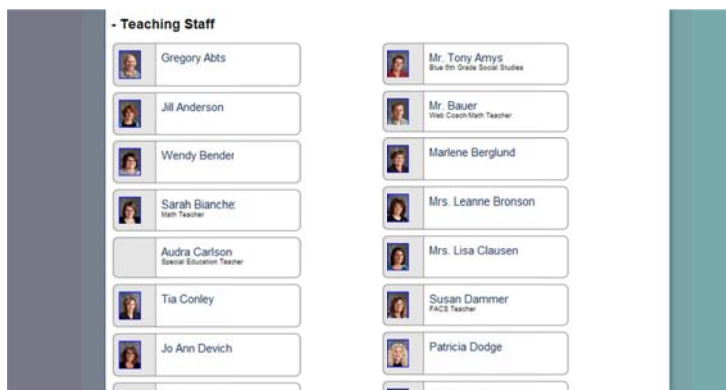

The homepage of each site contains **Announcements** and an **Event Calendar**.

When you move to a school, you will always arrive at the **Announcements Page**.

All Teachers have a **Profile Page** at the **Staff Listing** link.

Click on any staff member to see more information.

Teacher **Classroom Pages** can be accessed through a link on each Teacher's **Profile Page**.

On any teacher's **Profile Page**, the link is in the upper right corner with the title of **FusionPages**.
