

Why Join Pages?

When you have completed the parent registration for the website and entered birthdates and Student ID numbers for your students, you are **automatically a member** of every page associated with your students' schedules.

In some instances, you may also wish to join other pages such as a Principal's Page. The benefit is that by joining, you can elect to receive a daily email about any content added to such pages. In most cases, you will not need to join a page.

To view pages, it is not necessary to request to join pages.
